

Carolina Family Eye care | Charlotte, NC

Client

Carolina Family Eye Care

Scope of Services

Provide Modular Mill work solution

Project Size

3,200

Features

- Customer needed a solution that would offer them the ability to relocate and or reconfigure in the future
- Offered alternative to conventional “built-in” solution

Project Duration

January 2014 to Present

Project Overview

Headquartered in Charlotte, NC Carolina Family Eye care has 2 locations and recently moved 1 of its locations to a new facility. The customer had previously purchased “built-in” mill work for each of their exam rooms and was offered a more flexible, cost savings solution. The modular mill work that was provided offered the ability to move each of the units along with the ability to field modify in the event needs changed.
