

Client

Rosendin Electric

Scope of Services

Receive, Deliver and Install cubicles, training room, office, conference room and chairs

Project Size

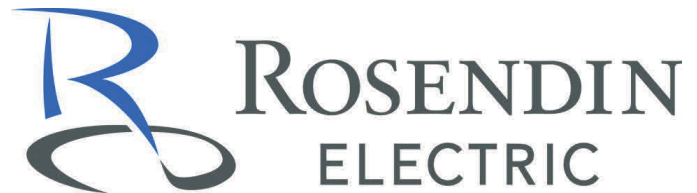

2,400 sq ft

Features

- Match clients existing product (not sold by Valuebiz)
- Create cost effective solution without sacrificing style
- Design floor plan that maximizes space

Project Duration

September 2018 – Present

Project Overview

Rosendin came to Valuebiz to outfit their newly acquired adjacent suite and wanted to match the existing look of the product that was acquired when they originally moved into their office. Valuebiz was able to offer a solution that allowed for laminate faced panels that were monolithic to save cost but also had the segmented look their existing product had. Valuebiz also had to match existing offices and conference rooms based on the customers vision.
